

PORTFOLIO

Filip Håhus Sr. Mechanical Designer

Hi!

My name is Filip Håhus, I am a Mechanical Designer with over 20 years experience of designing parts.

It all started in 1997 when I was offered a position as a R&D Engineer in the prototype and product development department at Nolato in Kristianstad.

Since 2006 I have been consulting as Mechanical Designer and helped customers with a broad variety of assignments.

Im creative and positive person with the ambition to create sustainable and high quality products.I like working in teams taking responsibility and contribute with my experience. I enjoy complex tasks and like to solve problems!

I have done the mechanical design of the parts on the following pages. My daily duties where: 3D-modelling, surface modelling, concept studies, FEM Simulation, 3D-printing, testing (IP, drop etc.), DFM, visiting suppliers in Sweden, Europe and Asia.
